DEPARTMENT OF PERMITS AND DEVELOPMENT

LEGISLATION REQUEST

To: Jon Snyder, President
North Canton City Council

Subject: Creation of a Rental Property Owner Registration Program

Requested by: 
Eric Bowles, Director of Permits and Development

Date: October 1, 2013

Approved by: 
Mike Grimes, Director of Administration

Date: October 1, 2013

Background: The City of North Canton currently does not have a complete database of the owners of rental properties within the City of North Canton. The absence of this information creates difficulty for the Department of Permits and Development staff when complaints are received regarding violations of the City's Minimum Housing Code and it becomes necessary for the Department Staff to conduct an inspection and properly notify owners of record of any violations found. Having correct contact information to reach an owner or property manager will allow the Department Staff to communicate such problems as utility restorations, vacant or open structures, or other issues in a timely manner. Further, a rental property program will allow the City of North Canton to create and maintain a database of property owner contact information so that Safety/Service Departments can contact property owners when an emergency arises. Creation and maintenance of this database is necessary as Stark County records, phone directories, on-line resources, and other directories do not always reflect correct owner information.

Request: Requesting legislation to require that all owners of residential rental properties in the City of North Canton annually register their properties with the City's Department of Permits and Development

EMERGENCY REQUESTED: Yes _____ No X _____

PROPOSED

North Canton Rental Property Registration Program

Purpose

To require that all owners of residential rental properties in the City of North Canton annually register their properties with the City's Department of Permits and Development. The Rental Property Registration Program will allow the City of North Canton to create and maintain a database of property owner contact information so that Safety/Service Departments can contact property owners when an emergency arises. Creation and maintenance of this database is necessary as Stark County records, phone directories, on-line resources, and other directories do not always reflect correct owner information.

In addition, when the Department of Permits and Development receives a formal complaint regarding violations of the City's Minimum Housing Code, it becomes necessary for the Department Staff to conduct an inspection and properly notify owners of record of any violations found. Having a phone number to reach an owner allows the Department Staff to communicate such problems as utility restorations, vacant or open structures, or other issues in a timely manner.

The Rental Property Registration Program is enforced by the Department of Permits and Development. Failure to register is a violation of the Housing Code punishable by legal penalties. The annual filing fee for each property owner is fifty dollars (\$50.00). The deadline for the annual registration is March 15th of every calendar year. After that date, a late fee equal to the double the original registration fee is required.

Mr Benekos,

Many years ago, Schneider Lumber was asked to help finance a builder in the development of Eastwoods.

After several years of travail this development finally turned into a viable, attractive neighborhood.

The unfortunate element of this property is it has several swampy areas, which prohibit construction of homes either with a basement or on a floating slab. Several attempts by builders were to no avail, and ended in failure. It is just too unstable to support a structure.

After many years, this problem continued to lay unresolved, economics changed and the ultimate decision has been ignored.

After the lumber company was closed, most of the assets were disposed of, leaving these "Step Children" lots.

As it turned out I became, by default, responsible for their disposal.

It is time a decision be made as to their future!

I would suggest that we gift these lots to the City of North Canton.

You, in turn, could develop these into a "non-load bearing " use, park, natural or grassy area, or to some use the neighborhood might suggest.

There are several lots adjacent to existing neighbors that a being maintained by those caring homeowners, and I am certain that if they were approached with the idea of purchasing them for very nominal price, they would certainly seriously consider it.

As I near the end of my residency here, we feel this situation should be resolved.

Sincerely,

Donald Schneider
