

Energy, materials, recycling and disposal done right.

INFORMATION ON REFUSE/RECYCLING SERVICE

95-gallon Refuse Carts – Each resident will receive a 95-gallon 2-wheeled refuse cart. The dark green heavy-duty container typically replaces 3-4 trash bags/cans, and provides a more convenient way for residents to store trash and transfer it to the curb. The carts are animal resistant with attached lids, resulting in cleaner neighborhoods. The carts will be emptied by an automated truck which enhances safety for pedestrians and motorists. Please have your cart out by 6 a.m. on collection day.

65 –gallon Refuse Carts for Low Volume Generators- If you are a low volume generator, please be aware that you can opt for a smaller (65-gallon) 2-wheeled refuse cart.

65-gallon Recycling Totes – Each resident will receive a 65-gallon 2-wheeled recycling cart. The bright green heavy-duty cart includes information on the lid regarding what can be recycled, and provides a more convenient way for residents to recycle large quantities. The carts also enable collection by an automated truck, which enhances safety and eliminates blowing and scattering of recyclables. Please do not use your recycle cart for extra trash. Recycle carts containing refuse will not be emptied and will be tagged to notify the resident of improper use.

Full Refuse Service Continues– Your refuse service is NOT limited to the contents of your refuse cart. You may set out extra bags and bulk items next to your cart if necessary, and they will be picked up. If you desire a second refuse cart, you may contact Kimble at 1-800-201-0005 to lease one for an additional \$3.00 per month.

Back Yard Service- The Kimble driver will walk up to 150 feet from the curb to retrieve your refuse placed outside adjacent to your home or garage at ground level. This service is available at an additional fee.

Additional Plastics Now Recycled - In the past only plastic containers labeled #1 (PET) or #2 (HDPE) could be recycled. Kimble now accepts "rigid" plastic containers labeled #3-#7, in addition to #1's and #2's. Most plastic products are labeled on the bottom with a recycling symbol consisting of arrows that cycle clockwise to form a rounded triangle: and enclosing the number 1, 2, 3, 4, 5, 6, or 7. Any rigid food container or other consumer product container labeled in this fashion can now be included for recycling. Examples of plastic containers previously excluded that can now be recycled include salad dressing bottles, peanut butter and jam jars, juice bottles, squeezable bottles (ketchup and mustard), clam shell food containers, microwavable food containers, yogurt containers, margarine tubs, baby milk bottles, shampoo bottles, cooking oil bottles, hand soap bottles, apple sauce cups, cool whip containers, and plastic flower pot containers. Plastic items not acceptable include plastic bags, shrink wrap, Styrofoam, toys, motor oil and antifreeze containers. As you can see,

there is a tremendous amount of material which can be diverted from your waste can to your new 65-gallon recycle cart. Recycling a ton of plastic saves the energy equivalent of 1500 gallons of gasoline!

Single Stream Recycling - There is no need to bundle your newspapers, cardboard, or any other materials separately. All recyclable materials can be mixed together in your recycle cart as a "single stream" of recyclable material. The individual components of the mixed recyclables or "single stream" will be segregated and prepared for market at Kimble's automated recycling facility. See the attached complete list of all the items which can be placed in your recycling cart to be recovered and returned to markets.

REFUSE AND RECYCLING COLLECTION GUIDELINES

Residents will continue to be invoiced by the City of North Canton for refuse and recycling services which includes free use of carts (one for refuse and one for recycling). Residents who choose to lease extra carts will receive an invoice from Kimble for cart lease only (\$3.00 per month per extra cart).

Please remember to set your refuse and recycling carts at the curb by 6 a.m. The carts should be between 2-3 feet off the street with the lid openings facing the street. The carts should also be at least three feet apart, and 3 feet from other objects as such parked cars, mail boxes, trees, or bulky trash items.

As in the past, items such as swing sets, carpet, tree limbs, gutter and down spouts must be cut to 48 inches or less, bundled, weigh less than 50 pounds, and placed at curbside for collection. Small amounts of construction and demolition debris (C&D) are acceptable however, for large amounts or contractor generated C&D contact Kimble to arrange for a temporary dumpster.

As before, the weekly refuse collection service DOES NOT include, tires, batteries, automotive/truck parts, paint, oil, fluorescent bulbs, gas cans, propane tanks, hazardous/infectious waste, flammable liquids, and any waste prohibited from disposal in a municipal solid waste landfill. (Call the Solid Waste District for information on disposal of these items: 800-678-9839). Appliances will be accepted if they have been tagged by a certified technician for Freon removal.

Please call Kimble's customer service office with any questions about the program at 1-800-201-0005, Monday through Friday, between the hours of 7:00 a.m. and 5:30 p.m., or on Saturday from 7:00 to noon. To learn more about Kimble, log on to their website www.kimblecompanies.com.

INSTRUCTIONS FOR TWO WHEELED CART PLACEMENT

PLEASE DO THIS

NOT THIS

Placement of Cart: The carts need to be within 2 feet of the street. The best placement for the carts is at the end of the driveway or on the grass within 2 feet of the road.

Give us some room: With the automated collection trucks we need some room away from obstructions like trees, mailboxes and cars.

Loading your cart: We recommend bagging your trash so it won't stick to the inside of the cart. This will also help to keep the carts clean on the inside. Do your best to break down the items inside the cart so they don't lodge themselves inside and make it difficult to dump.

Face cart towards the street: Put your cart at the street so the arrows on the lid of the cart will point towards the street.

THANK YOU FOR YOUR HELP!

KIMBLE RECYCLING & DISPOSAL WORKS HARD TO MAKE SURE THAT YOUR RECYCLING EXPERIENCE IS AS EASY AS POSSIBLE.

First, there is no need to sort your items! Just place in your provided bag, cart or tote and wait for us to pick it up. If you'd like, you may rinse your cart occasionally to free it of debris or leaked fluids.

We also take the guesswork out of which items you can recycle. We recycle most common household plastics, fiber and non-fiber items.

Here is more detail about what we do and do not accept:

WE DO ACCEPT...

All newspaper
Cardboard
Plastics #1-#7
(check the bottom of your container for the number inside the triangular recycling symbol, and see below for more details)
All colors of glass
Aluminum cans
Other bi-metal products

WE DO NOT ACCEPT...

Paint cans
Anti-freeze
Motor oil containers
Wax cartons
Batteries
Light bulbs
Wire hangers
Plastic bags
Styrofoam
Toys
Plastic utensils

Don't see the symbol, but think it might be recyclable? We also accept these fiber and non-fiber items:

FIBER:

Newspapers
Magazines
Corrugated cardboard
Telephone books
Mail
Printer/copier paper
Chipped board
(e.g. cereal boxes)

NON-FIBER:

Aluminum cans
Aluminum trays
Aluminum foil
Cat food cans
Bimetal cans
Empty aerosol cans
Clear brown or green glass bottles
Plastic containers marked #1-#7

HERE ARE EXAMPLES OF RECYCLABLE PLASTICS WE COLLECT WITH #1-#7 ON THE CONTAINER:

- #1: Soft drink bottles, water bottles, peanut butter jars, window cleaner bottles, mouthwash bottles
- #2: Laundry detergent bottles, windshield washer fluid bottles, coffee containers, milk jugs, butter tubs, medicine bottles
- #3: Shampoo bottles, cooking oil bottles, hand soap bottles, gladware container lids, and juice bottles
- #4: Mustard bottles, margarine and ice cream tub tops, squeezable bottles
- #5: Cool whip containers, gladware tubs, plastic flower pot containers, apple sauce cups, plastic cups
- #6: Plastic cookie tray dishes, vegetable tub containers, take-away containers
- #7: Orange juice plastic bottles, kids snack containers, some ketchup bottles
